

Immediate FundsSM Fulfills Accountholders' Need for Instant Access to Check Funds

In a world that's on 24/7, your accountholders often need instant access to their deposited check funds. Immediate Funds from Fiserv lets you meet a pressing demand from consumers and small businesses – while adding timely digital services.

Take a look at these 2020 stats to see how Immediate Funds is growing.

Who's Signed Up

Active Accounts and Accountholders

19 million accounts under management

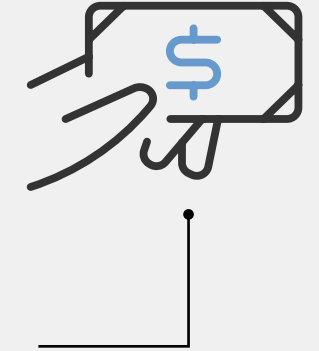

780,000 active customers

How It Works

Accountholders receive an offer of accelerated funds availability within seconds only when they have been pre-approved. This ensures no accountholders see a decline.

90

million offers made

It's a low-risk, high-satisfaction solution. If a guaranteed check is later returned, the financial institution is reimbursed by Fiserv.

\$1

billion in check deposits guaranteed

When It's Used

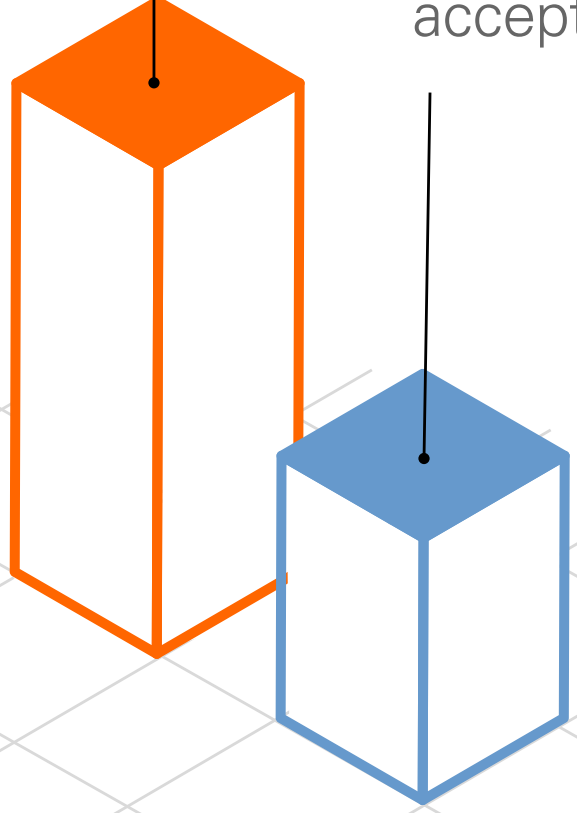

When offered Immediate Funds, many consumers accept.

22%

of mobile users who were offered Immediate Funds accepted

15%

of ATM users who were offered Immediate Funds accepted

Life moves fast and people and businesses want their money to move fast, too. Now banks can meet a critical need by offering real-time funds availability when it matters most to customers. Deliver at the speed your accountholders expect, earn their loyalty and create additional digital services without additional risk by offering Immediate Funds.
